

Smart Cloud Security

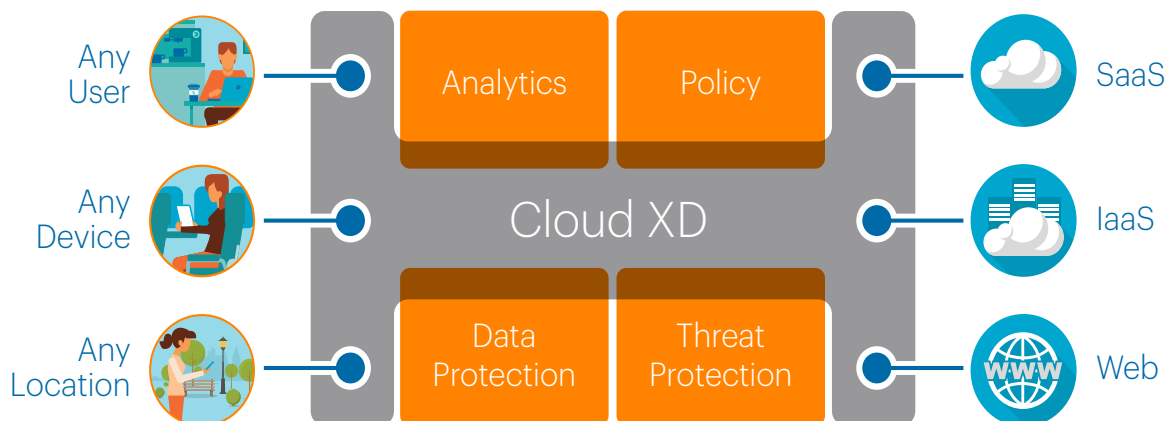

NETSKOPE IS THE LEADER IN CLOUD SECURITY

We help the world's largest organizations take advantage of SaaS, IaaS, and web without sacrificing security.

The cloud is transforming your organization. It's changing how we work as everything is becoming more intuitive, connected, open, collaborative, and that change is rippling across SaaS, IaaS, and the web. This is great for productivity, but it's resulting in new challenges and risks that legacy security vendors can't address.

At Netskope we believe security should be smart enough to solve these new challenges and risks. And that's how we've built the Netskope Security Cloud from day one.

THE NETSKOPE DIFFERENCE

Eliminate blind spots

Netskope Cloud XD™ understands SaaS, IaaS, and web in extreme definition to eliminate blind spots

Guard data everywhere

360° data protection guards data everywhere through award-winning DLP and encryption

Stop elusive attacks

Advanced threat protection stops elusive attacks that traverse SaaS, IaaS, and web to inflict damage

Full control, one cloud

Full control of SaaS, IaaS, and web, from one cloud-native platform that scales automatically

LEADING ENTERPRISES TRUST NETSKOPE

Ready for Smart Cloud Security?

Whether you're rolling out Office 365 or AWS, safely enabling unsanctioned SaaS, or simply want the best CASB and web security in one cloud-native interface, Netskope can help you get started.

To schedule a demo or just to learn more about Netskope, send us an email at contact@netskope.com.
